
Supplemental Filing

**Response to Data Requests
1 through 80**

In support of the

Application for Certification

for the

Sun Valley Energy Project

Romoland, California
(05-AFC-03)

Submitted to the:
California Energy Commission

Submitted by:
Valle del Sol Energy, LLC
A wholly owned subsidiary of

An EDISON INTERNATIONAL® Company

With Technical Assistance by:

Sacramento, California
April 2006

Introduction

Attached are Valle del Sol Energy's, LLC's (VSE's), responses 1 through 80 for the Sun Valley Energy Project (SVEP) (05-AFC-03). The CEC Staff served these data requests on March 15, 2006, as part of the discovery process for the SVEP project. The responses are grouped by individual discipline or topic area. Within each discipline area, the responses are presented in the same order as CEC Staff presented them and are keyed to the Data Request numbers (1 through 80). New or revised graphics or tables are numbered in reference to the Data Request number. For example, the first table used in response to Data Request #15 would be numbered Table DR15-1. The first figure used in response to Data Request #28 would be Figure DR28-1, and so on. This set of responses incorporates an exception to this rule for Figures 8.13-2, -3, and -4 (see Visual Resources and Data Request #66). These figures have the same numbers as in the Application for Certification (AFC) because we are providing an enlarged print of the same figures from the AFC, and not a revision of those figures.

Other supporting information in response to a data request (supporting data, stand-alone documents such as plans) is found at the end of a discipline-specific section as numbered attachments. These additional pieces of information are not sequentially page-numbered consistently with the remainder of the document, but may have their own internal page numbering system.
